### Software & Technical Skills

- **Office Softwares:** MS Office (Word, Excel 2013, Outlook).
- **Software Packages:** NetBeans, Eclipse, Notepad++, Brackets, core ftp, MySQL, win-merge, Adobe Photoshop CS6, Adobe Illustrator, db visualizer, online uploader, Bugzilla.
- **Programming Skills:** HTML5, CSS3, Twitter Bootstrap (2.3.2 and 3.3.0), SASS and compass, Javascript, JQuery, Ajax, Angular Js, PHP, SQL, Testing.
- **Platform:** Windows(98, XP, Vista, Windows7, Windows8).

### Work Experience

- ➔ Experienced in analyzing user requirements, designing and development of projects using technologies like HTML5, CSS3, Javascript, JQuery, Ajax and other development tools.
- ➔ **Expert in RWD** and have a very good understanding and working knowledge of different devices its breakpoints and the browsers.
- ➔ Experience of interacting with **international clients for requirement analysis and project discussion.**
- ➔ Training of new employees, coordinating with supporting department to enhance systems and workflow.
- ➔ Have given a presentation to fellow employees on seo and bootstrap.
- ➔ Worked on over **30+ International projects.**
- ➔ Extensive Project experience and quick adaptability to changing trends and technologies.

Mentioned below are few major projects :

#### **PROJECT #1 :**

Account: Johnson And Johnson

- ➔ SimponiUC
- ➔ Xeralto Clinical Data
- ➔ Invokana Care Path
- ➔ Yondelis Launch Site
- ➔ Yondelis Full Site (First Omega Project using singularitygs and SASS)
- ➔ Dazlarex (Omega Framework)
- ➔ XeraltoHCP and XeraltoUS
- ➔ TargetingMM
- ➔ MYMMStory

**Duration:** 1-3 Months

**Team Size :** 2-4

**Environment :** HTML5, CSS3, Bootstrap 3, SingularityGS, SASS and Compass, Javascript, JQuery, Ajax, Adobe Photoshop CS5

**Synopsis :** Currently working for Johnson & Johnson client and listed above are few of the site that I have created, currently I am working on the final stage of Yondelis Full Site which is the first pilot project on Omega framework in Johnson And Johnson. It was done using Drupals Omega framework with singularitygs as the responsive grid system using SASS and compass. Other sites were done using Bootstrap 3 framework. All the above projects are responsive and are tested on following devices (Iphone 4/5, Android phones, Ipad Mini, Desktop and MAC browsers).

#### **Roles & Responsibilities :**

- ➔ Participating in daily scrum meetings and updating the client on the progress.

- ➔ Developing the front-end and making it compatible on all the browsers and devices once the HTML is integrated to Drupal framework.
- ➔ Designing and executing Unit testing.
- ➔ Document the complete flow of the website.

**Achievements :**

- ➔ Yondelis was the first omega website for the client, and I was given this opportunity. It was tough initially as I had no clue about SASS, compass and singularity gs grid system which comes default with the omega framework. The commands were different and the coding structure was different and unlike bootstrap we don't have any default class which we can use directly to get the grid system, everything had to be done from the scratch. But it was a good learning experience.

**PROJECT #2 :** Employee Daily work update module

**Duration:** 1 Months

**Team Size :** 1

**Environment :** HTML5, CSS3, Javascript, JQuery, Ajax, MySql, Adobe Photoshop CS5

**Synopsis :** Built a module where an employee can access his/her profile, apply for leave, send in a daily work update, check their balance leave, send a request to add the projects and view task assigned to them based on Priority. There is a cms section which is accessed by the TL's and PM's they can view their profile details, approve or reject a leave application sent by their team members and assign tasks to their team members and can assign priority to those tasks and even check their team members progress and work update or add projects.

**Roles & Responsibilities :**

- ➔ Collating business requirements, then translating these into functional specifications.
- ➔ Participating in meetings and establishing communication channels with senior managers, key team members and stakeholders.
- ➔ Developing the front-end as well as the cms section design and functionality.
- ➔ Designing and executing Unit testing.
- ➔ Document the complete flow of the website.

**Achievements :**

- ➔ This was my first solo technical project.
- ➔ Understood the complete flow of development life cycle.
- ➔ This project has been currently implemented in my company.
- ➔ Received appreciation from my TL and PM.

**PROJECT #3 :** Branded Uniforms - (Responsive)

**Duration :** 2 Months

**Team Size :** 4

**Environment :** Twitter Bootstrap 3, HTML5, CSS3, Javascript, JQuery, Ajax, MySql, Adobe Photoshop CS5

**Synopsis :** It is a shopping cart website the products are mainly related to the uniforms of different schools in UK. User can select his/her uniforms based on the schools and there are two payment option ie. Online and offline methods and the payment gateway used in this is cardsave there is a custom calendar for the user which had to be built where the user is shown two dates ie. Cutoff date and school collection date based on which school he has selected and these dates are displayed for every months and these dates may vary according to the dates provided by the schools.

**Roles & Responsibilities :**

- ➔ Participating in meetings and establishing communication channels with senior managers, key team members and stakeholders.
- ➔ Developing the front-end section design and functionality.
- ➔ Designing and executing Unit testing.
- ➔ Document the complete flow of the website.

**Achievements :**

- ➔ This was the first Responsive shopping cart website developed in my company.
- ➔ Designed workflows as per the specifications.
- ➔ Understood the payment gateway and cart functionality.
- ➔ Provided clients with initial and ongoing support throughout the life cycle of the website.

**PROJECT #4 :** Modernmint and Modernmint Store - (Responsive)

**Duration :** 2 Months

**Team Size :** 3

**Environment :** HTML5, CSS3, wordpress, Javascript, JQuery, MySql, Adobe Photoshop CS5

**Synopsis :** Modernmint is a gardening site the website is up and running and now one more website is being developed exactly similar to the present website which has the shopping cart functionality in it. This website has a slider which has been implemented in two ways one with image and text in it which is currently used in the home page slider and the same slider is used in about-us and design page where there is only image in it. Present website is built on wordpress 3.7 and the Store is built on wordpress 3.8.1.

**Roles & Responsibilities :**

- ➔ Participating in meetings and establishing communication channels with senior managers, key team members and stakeholders.
- ➔ Developing the front-end section design and functionality.
- ➔ Designing and executing Unit testing.
- ➔ Document the complete flow of the website.

**Achievements :**

- ➔ This was my first wordpress project.
- ➔ Understood the complete flow of the wordpress admin section.

**PROJECT #5 :**

- ➔ IIAG(Insurance Internal Audit Group)
- ➔ ASYR(Addiction Services York Region)
- ➔ CITT(Logistics Courses and Professional Certification)
- ➔ Distinctive Rewards
- ➔ TalkingAS
- ➔ The MBO Group
- ➔ Brad Jones Karate
- ➔ WebIntelligent

**Duration :** 5-10 Days Each

**Team Size :** 1

**Environment :** HTML5, CSS3, TwitterBootstrap 2.3 and 3

**Synopsis :** All the above projects are responsive and are tested on following devices (Iphone 4/5, Android phones, Nexus, Ipad Mini, Windows 7 phone, Desktop and MAC). These websites are built using HTML5 and CSS3 mounted on Bootstrap framework.

**Roles & Responsibilities :**

- ➔ Participating in meetings and establishing communication channels with senior managers, key team members and stakeholders.
- ➔ Developing the front-end section design.
- ➔ Executing Unit testing.
- ➔ Document the complete flow of the website.

**Achievements :**

- ➔ CITT was my first Bootstrap project.
- ➔ CITT was the first project from this client and I received positive appreciation from the client for the same and since then they are one of the permanent client with my company.

**PROJECT #6:** RHL-Logistics

**Duration :** 1 Day

**Team Size :** 1

**Environment :** RWD, Javascript, JQuery

**Synopsis :** It is a Logistic company based in Uk the website deal with the delivery of logistics across Uk. Once the package is delivered to the client the delivery agent can take the sign of the customer through Iphone 5 that functionality was implemented by me. Challenging part was when the orientation of phone was changed from landscape to portrait view the sign had to fit in according to screen size.

**Roles & Responsibilities :**

- ➔ Develop the signature functionality for Iphone 5.
- ➔ To make the signature fit properly on the screen when the phone's orientation is changed.

---

***Educational Qualifications***

- ➔ ***BE(VTU)-Bachelor Degree in Electronics & Communication Engineering-*** passed with 58%-Karavali Institute of Technology, Mangalore, India-2011
